HOLLYWOOD-(NEA.)-Movies Without Popcorn:

Temperament is popping on the set of "Pagan Love Song." You can give a stubborn mackerel a sus-

A diver is sent down into the drink to hammer at the tank and disperse them, but his knock-knock only sends the fish into another corner. Esther is weary, the director is discouraged and the crew is wishing aloud that Lassie could double as a worm-gulper when I leave the set.

John Dall, Jane Wyatt and Lee J. Cobb are the stars of "The Gun" on the General Service lot. It's Jane's first screen try as a sexy trouble-maker after a series of wholesome girl roles and there are more than the usual quota of set-gapers around to see Jane go bad.

Director Felix Feist rehearses Lisa Howard in a scene with Dall. "Turn to the right, cutie, watch the white line, cutie," he shouts. Nobody bats an eyelash. It's perfectly all right for Feist to call Lisa 'cutie." She's his wife in private life.

The script calls for Lisa to dash into the kitchen and inform Dáll that there are no eggs in the icebox. Lisa, I decide, must have X-ray eyes. She doesn't even open the ice-box.

set up a republic in the New World?

Questions and Answers

At a busy soda fountain where you grab a hasty lunch, you are very soon surrounded by an animated bunch. On your left there sits a babbling babe who gabs in great delight, with her just-asgabby girl friend who is sitting on your right. Then you're caught between a fire of words which beats against your ears, as you listen to a pair of dames discuss their hopes and fears.

Now the gal upon your left, it seems, has got a boy friend new, and she chatters of his handsome mug without a thought of you. And her pal who's on your right must lean across your luncheon plate, as she listens to the drippy conversation of her mate. You are stuck between two gossips like a chicken in a coop, and you wonder if you've got a fighting chance to have your soup.

Then they have to trade some pictures which they pass beneath your nose, and you almost bite a snapshot of a pair of Romeos. You have got to use your elbows to protect your waiting food, and you wish you were in 'Imbuktu where gals could not intrude. As you tear into your sandwich there is murder in your eye, for you're sandwiched in just like the ham between your ham-on-rye.

The concern evidenced privately in some Pentagon quarters was that if North Korea's Communist friends in Russia and China start sending in hundreds of thousands of volunteers the conflict may swell into a prolonged, majorscale war even though the theater remains localized in that part of the Far East.

It was recalled that more than a week ago there were reports of about 200,000 Chinese Communis troops assembling on the Manchurian border with the apparent intention of moving to the aid of the North Korean Army.

There now are reasons to believe that force was only the beginning, that the foreign support for the North Koreans poised to

## Campaign Fund Is Hard To Get

Sen. Morse Tells His Difficulties

senators up for re-election this fall met the other day to discuss the all-important question of money and how to raise it. Intended as a pep meeting, it turned out somewhat differently than had been expected.

By MARQUIS CHILDS

Present besides the senators were National Chairman Guy George Gabrielson, and Victor A. Johnston, director of the GOP senate campaign committee. Presiding was Senator Owen Brewster of Maine, chairman of the Senate campaign committee.

Brewster spoke in a somewhat solemn vein about the difficulty of raising campaign funds. It money would have to be concentrated for the most part in crucial

Each senator was called upon in turn for his suggestions. When it came round to Senator Wayne Morse of Oregon, he began with a good-natured grin to talk about his primary fight.

In that contest the almost unknown challenger, Dave Hoover, a dairy farmer, received contributions of \$51,473, and reported expenditures of \$3,887 in excess of that amount. A lot of this money came in from wealthy Republicans in the east anxious to defeat Morse because of his leberal rec-

MUSTANGS TO THE RESCUE - F-80 Shooting Star jet fighter anes, like those pictured below, haven't done well against Russianbuilt Yaks in Korea. They're just too darned fast. So they will soon be replaced by Mustang fighters—battle-proved veterans of World War II—like the P-51 shown above. The jets are handicapped by distance. Operating from Japanese bases 300 miles away, they are limited to 10 minutes or less over the target area. Their speed is a handicap—if the Shooting Star pilot misses his first pass at a North Korean plane his 600-miles-per-hour ship is 40 miles away before he would not be easy, he warned, to ean turn for another shot. The North American Mustangs have a find sufficient money to help out top speed of 450 miles per hour, are highly maneuverable, can spend in each state where there is a sen- an hour or more over a target and are well-suited to low-altitude ate contest. # Which would happen in your refrigerator?

This egg was kept uncovered for 7 days in an Admiral Dual-Temp Refrigerator. The cool, dewy atmosphere of the Dual-Temp has kept this egg yolk golden yellow, moist, fresh and useable.

This egg, taken from the same dozen, was kept uncovered for 7 days in an ordinary refrigerator. Exposed coils have drawn out the moisture. The white has crystallized. The yolk is dry and hard.

## Keeps all foods from drying out!

The Admiral Dual-Temp is more than just a spacious moist-cold refrigerator, it's an honest-to-goodness home freezer, too. It quick-freezes at 20° below zero—holds up to 84 pounds of frozen food.

Far fresher, far longer! In the big moist-cold compartment foods stay fresh in uncovered dishes. Even strong flavored foods such as cheese, fish, cantaloupes won't share their scent in an Admiral Dual-Temp. An ultraviolet Sterilamp helps purify the air.

Good-bye to all defrosting chores! You've seen the last of frosted coils and messy drip pans, too. The cooling coils that create the cool, dewy atmosphere have been built into the walls-out of sight, out of mind, so there's no more work for you.

Extra space at no extra cost! Now you get full-length cold - over 3 cubic feet more storage space at no extra cost. For the best buy you've made, come see a Dual-Temp now.

And for the beach, the toddlers are going in for fig-leaf pants straight from the French Riviera, where brevity is the soul of style for young and old.

The pastel colored diapers are among the newest wrinkles in the fashion field, being available pink, blue or maize, in a lightweight gauzy fabric.

The fig-leaf pants were designed by Sherry Royce after a visit to France, where she saw European moppets wearing the French style swim suits with great

## Quarry Pool Area Charted

### Many Uses Planned By Recreation Board

Tangible steps toward the utilization of city owned land in the vicinity of the quarry pool are now being taken, City Manager Harold Heideman announces.

This bit of ground, of from eight to ten acres, has been desigthe morning group, which is for nated as property to be devoted entirely for recreational purposs It had long been understood that the land would eventually be so used, but no action had been taken to make the plans official until about a month ago.

Since that time the land is being charted and suggestions will be entertained as to how the land may be used. Among the things for which it will be used will be a site for a soldiers monument, for a band shell, baseball and softball fields, skating rinks, tennis court and a picnic grounds.

The first move in this direction is the leveling of a bit of ground to be used as a softball field to supplant the one at the fairgrounds park, which must be vacated because of its proximity to the hospital.

as yet been included in plans for games will be played on the fairthe area.

The "two musketeers" have been there. You don't know who the "two musketeers" are? My, what inning 4-3 victory over the favor- was batting righthanded against

None other than Bob Beaudoin and Don Trottier, two fancier beau brummel fishermen you've never seen.

Beaudoin, of course, is the former Eskymo tennis ace who cut a ter and Ralph Kiner. For they, wide swath among the fair sex on the campus in Ann Arbor town before he left (sheepskin in hand) to help put Chicago back on

And Trottier (whose pa, Gussie, had an uncle who plowed the straightest furrow this side of Trois Rivieres with his oxen), was the St. Joe flash of a few years ago. Now he's a respected citizen (well, at least a citizen) of Milwaukee, the town that beer made famous and beer that made Trottier fat.

Now that introductions are out of the way, let's proceed. Aforementioned debonair due dropped into the office the other day. And, after we had picked up the swooning gals, we learned that the strange Michigan-Notre Dame combination had just returned from a fishing trip to Minnesota and Canada.

They dwelt more on the beauties of nature (human and otherwise) than on the fishing. Whether for effect or otherwise, however, they did ask if there were a taxidermist in town. That would seem to indicate they had found something to mount.

Thought we'd scare up a little dissension in the pair.

So we got Beaudoin to ask Trottier how come Notre Dame had been playing football nigh unto a century, or thereabouts, and never tion. had had a Negro star on the team when other colleges and universities (notably Michigan) did.

Trottier had a feeble answer (there was one on the squad last

CARD OF THANKS

We wish to express our sincere ap-reciation and thanks to all the kind eighbors and friends who assisted us neighbors and friends who assisted us during the illness and at the time of the death of our beloved wife, mother and sister. We are very grateful to Rev. Bernard Karal for his comforting words, to those who served as pall-bearers, donated the use of their cars, sent floral and spiritual bouquets and to all others who aided us in so many ways. The memory of these acts of kindness will always remain with us.

# The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its

There is the all-important point about what a car does to youand that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand-when you cut loose, with a toe-touch, the rich baritone of its big Fireball straight-

eight power plant-when you feel the smooth surge of its Dynaflow-cushioned take-off-

Man, then you know you've got a real automobile!

And don't overlook this:

That graceful sweep of chrome along the fender-found on no other car made today - is a mighty eye-catching note of dis-

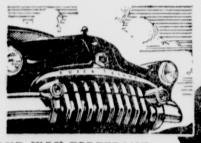

Those four Ventiports, too, cause many a head to turn-they mark you unmistakably as the owner of the biggest and best Buick built-a car as fine and rich as any man has need for.

There are a lot of good, solid,

dollars-and-cents reasons for making ROADMASTER your choice over any other car:

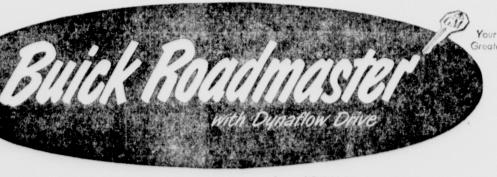

Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine. Dynaflow Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile-if you want one that puts your best foot forward in any company-that's the real reason for seeing your Buick dealer quickly-to talk turkey about a ROADMASTER.

FOUR-WAY FOREFRONT

This sugged front end (1) sets the style note, (2) saves on repair costs -- vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and
